

Green Finance

World Expo 2020, Singapore Pavilion
Wednesday, 6 October 2021

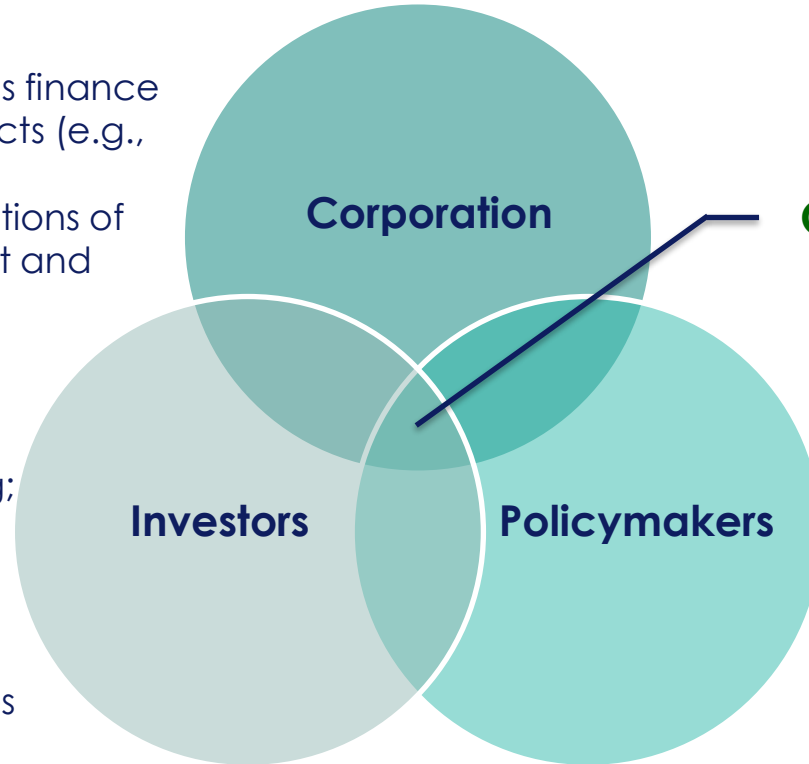

Dr. LIANG Hao
Associate Professor of Finance
Lee Kong Chian Fellow
Singapore Management University

What Is Green Finance?

- How corporations finance their green projects (e.g., green bonds);
- Financial implications of CSR commitment and investment.

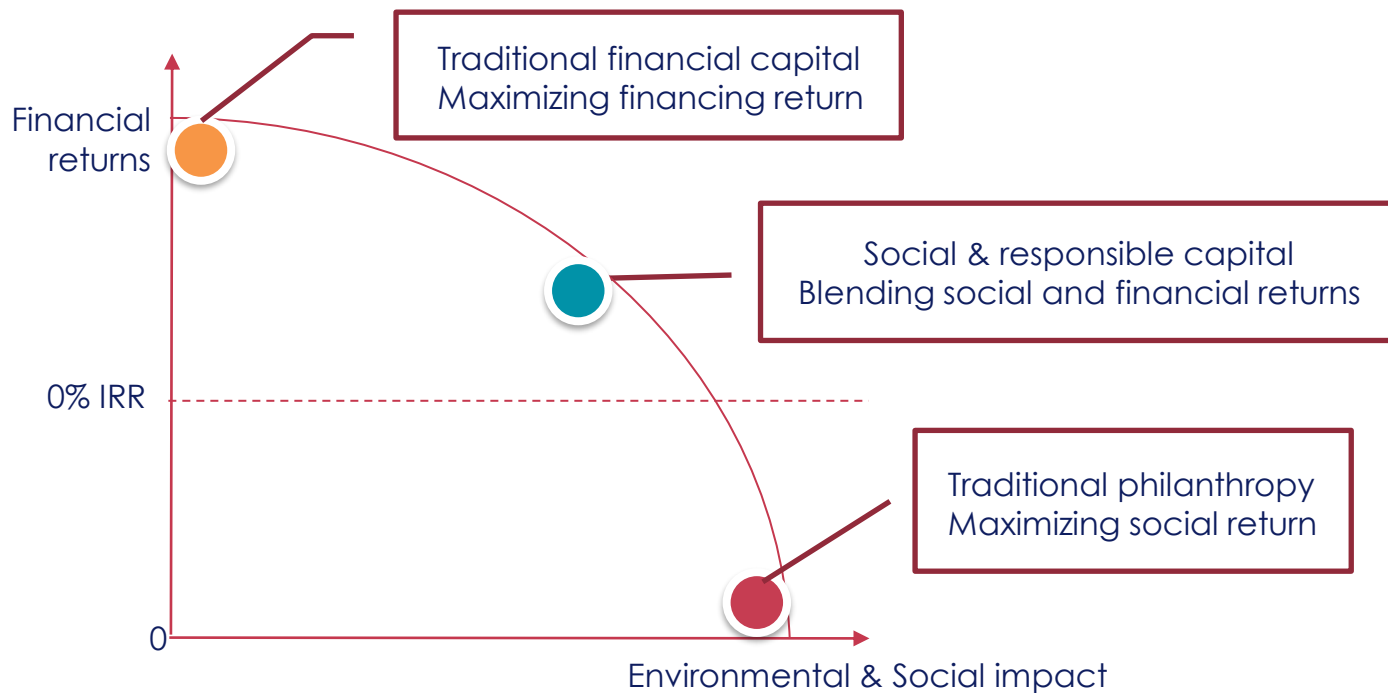

- Returns to green investing;
- Different strategies (e.g., negative screening, ESG integration, impact investing);
- Investors' ESG preferences

Green Finance

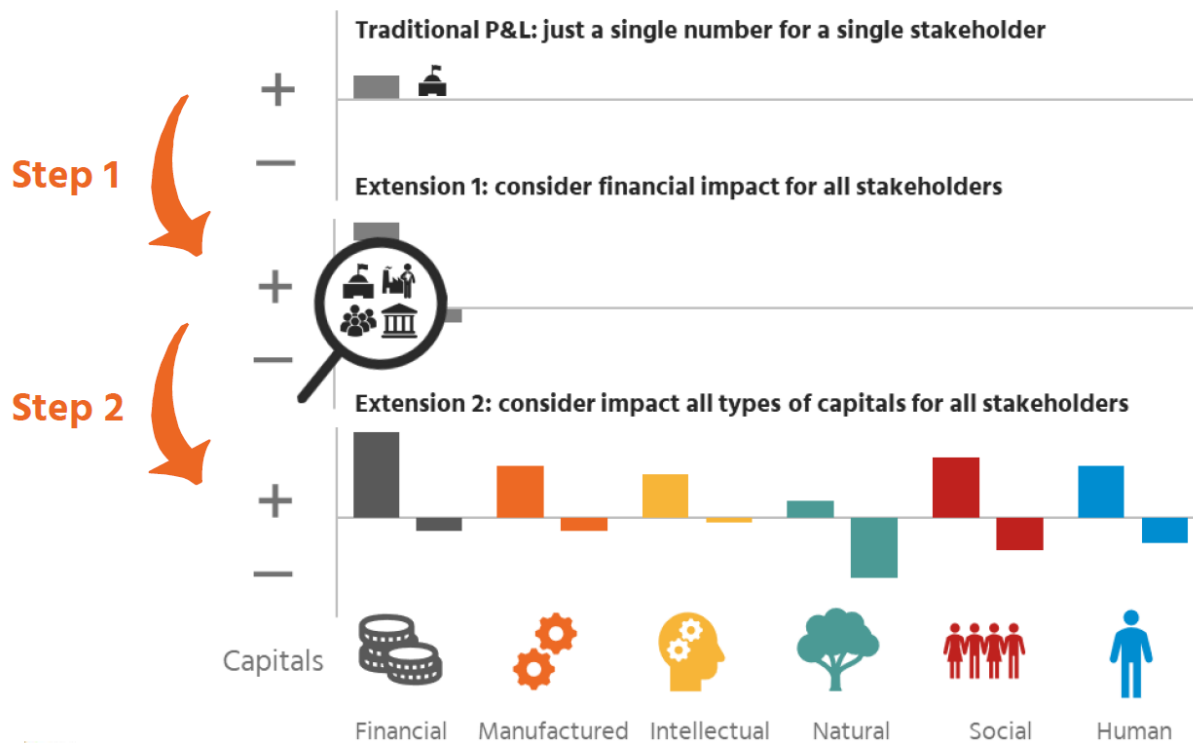

- Regulatory frameworks;
- Standards for ESG reporting, green taxonomy, sustainability labelling, etc.;
- Public financing incentives (e.g., tax exemption, subsidies)

Green Investment

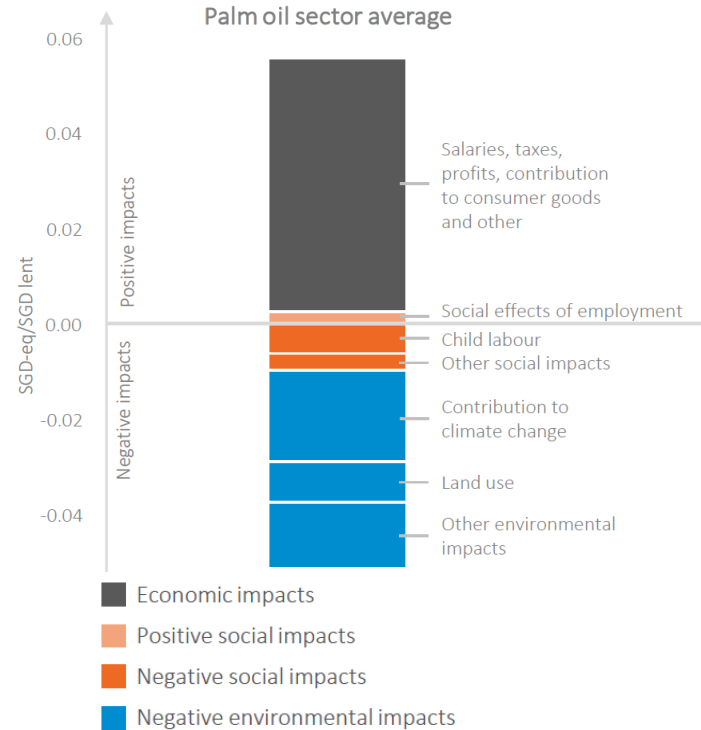

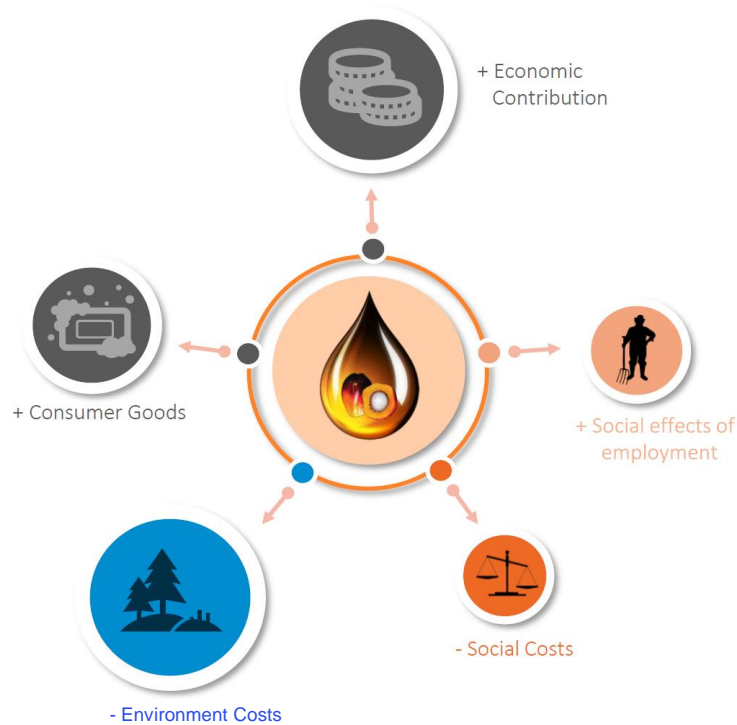

ESG & Impact Measurements

Financial Capital | Manufactured Capital | Intellectual Capital | Natural Capital | Social Capital | Human Capital

Impact Measurement Example: Lending to the Palm Oil Sector by a Bank
